

Islamic Toddler Jigsaw Puzzles (3 Pieces)

© 2009 Umm An-Nu'man

Directions:

1. Photocopy or make more than one copy of the templates
2. Cut out the pictures that you wish to use to make the puzzle(s) on cardstock
3. Glue the template to the **back** of the picture and cut along the line on the template.

Sit with your child. Show him/her the puzzle whole. Take the pieces apart and allow the child to examine the pieces for as long as he/she desires. Move back and allow the child to work with the puzzle uninterrupted. Do not offer help or words of encouragement. Allow the child to focus on the activity insha'Allah. If the child shows signs of frustration then make an offer of help. Help by taking one of the puzzle pieces and examining it. Try to fit it to the other piece several times, purposely making a mistake. Then after a few attempts fit it correctly to the other piece insha'Allah. Take the puzzle apart again and allow the child the opportunity to try again insha'Allah.
